### **55-0416 4-STROKE BRACKET**

Adjust your trolling or auxiliary motor to five vertical running positions for changing water or load conditions. The anodized aluminum bracket is built to handle the increased weight and torque output of today's four strokes with long or short shafts. Hand-adjustable with just the turn of a knob, stainless steel torsion springs counterbalance motor weight making adjustments a breeze -- while the 2"-thick, extra-wide mounting board, along with aircraft-type stainless steel hardware deliver heavy-duty performance.

Handles up to 35hp, 263# motor, with 16" of travel. Spring assists.

Overall size: 8.500" wide x 21" high

Pad size: 11 1/2" wide x 10 3/4" high. Setback: 8"

Adjustable mounting holes.

Product weight: 20 lbs.
